APPENDIX A.

I

ADDRESS PRESENTED BY THE KOLAR GOLD FIELD MINING BOARD.

To

T. ANANDA ROW, Esq., B.A., C.I.E.,
Dewan of Mysore.

Sir,

As the representative of the Kolar Gold Field Mining Board, I am directed to thank you for again affording them the opportunity of placing before you various questions affecting the Gold Field, but before touching upon these allow me to offer you their very hearty congratulations on the well merited honour which was conferred upon you by his late Majesty the King-Emperor, Edward VII, on your appointment as a Companion of the Most Eminent Order of the Indian Empire.

Police Act.—The Board notes with satisfaction that Section 56 of the Police Act has been extended by Government Notification to the Gold Field area, but regrets that so far its provisions have been inoperative, as the procedure under the ordinary law is too cumbersome, and the necessary administrative machinery to facilitate quicker despatch of cases is not yet available.

We are informed that the Courts of the 1st Class Magistrate and the Munsiff are fully occupied with current work, and we therefore respectfully urge upon Government the early appointment of an additional Magistrate.

Water Storage for Cauvery Electrical Power.—Our thanks are due to Government for the special arrangements made during last dry season which resulted in little or no interruption in the supply of Electrical Power to the Field, but the Board still views with anxiety the possibility of the serious dislocation of the service during periods of drought for want of the Storage Reservoirs, the necessity for which has been represented on previous occasions.

Epidemic Diseases.

(*a*) *Bacteriological Laboratory*—During the past year with the exception of a sharp outbreak of small-pox, the Field has been practically free from epidemic diseases. In this outbreak which expended most of its virulence in the villages and settlements, we had the very hearty co-operation of the Government Medical Officer of Health in concerting measures to prevent the extension of the disease to the mining area, and happily success attended our efforts and small-pox was speedily stamped out. The same cordial feeling has obtained during the year between the Durbar's Medical Staff and our own Medical Officers to the advantage, it is needless to say, of the health of the Field. In this connection I would again point out that the Government Medical Officer of Health still remains very much in the position of the mariner without his compass—he has no Bacteriological Laboratory; and in those instances where points of doubt as regards diagnosis have to be cleared up, if it were not for his having the Mining Companies' Laboratory and Bacteriologist cheerfully placed at his disposal, his usefulness would be seriously impaired. May we hope that this essential item in the equipment of the Health Department will be speedily supplied?

(*b*) *Water-Supply.*—I am instructed to call particular attention to the fact that a strong feeling of disappointment prevails on the Field that the work of covering over the Betamangalam Water Distribution Tank at Champion Reef to protect the water from contamination has not yet been commenced. I feel confident that you will agree with me, Sir, that the one thing a community wants to be sure of is the purity of its water-supply, and under the present condition of things there must, amongst us on the Gold Field, be an absence of any feeling of certainty in that regard.

Government takes the greatest pains in the filtration of this water at Betamangalam and, I believe, it is bacteriologically examined there also; and for all this trouble we thank you, and we are very grateful, but is not all this trouble rendered futile when the purified water, before it reaches the consumer, is exposed to contamination in this open Distribution Reservoir at Champion Reef? and we would respectfully suggest that it is the water in this reservoir that should have the Bacteriologist's attention, or that, at any rate, it also should be examined.

A type of dysentery has been rife on the Field of late years amongst both Indian and European employees. It is a very severe form of the disease and our Medical officers tell us it was not observed in times gone by. Some connect it with the water-supply, and though there is no positive evidence to support such a theory, there is yet no absolute certainty that it is not right.

Augmentation of Police Force.—The Board desires to draw the attention of Government to the great necessity for increasing the Police Force on the Field. The population of the Gold Field is at present well over 80,000, and the proportion of Police to that number is therefore about 1 to 400, as compared with 1 to 212 in Bangalore and Mysore Cities. As is well known, the Gold Field is a resort of a very large number of undesirable characters whose predatory habits are a continual source of anxiety to the Mining authorities, and the prevalence of housebreaking and petty thefts indicate the need of more constables for the effective patrolling of the Field, especially between sunset and sunrise.

The Mysore Mines Regulation, 1906.—The Board are pleased to report that this Regulation continues to work satisfactorily and apparently without causing any inconvenience to the law-abiding portion of the population.

With reference to the extension of the Act to the Railway premises between Bowringpet and Marikuppam, you were kind enough, in your reply to the Board's Address last year, to intimate that the Durbar would be glad to support such a proposal, but that it was a measure for the Honorable the British Resident to adopt. Acting on this suggestion the Resident was approached and from his reply we understand that the matter has beed referred by him to the Durbar. We shall therefore be glad to learn when we may expect his very necessary measure to pass into law.

Attachments.—The steady increase during the past few years in the number of warrants served on the Mining Companies for the attachment of monies due to their employees has led to an enquiry which has revealed the fact that many of the defendants are merely labourers, and that plaintiffs have obtained issue of warrants against them by falsely representing them to be artisans or skilled workmen. We believe that the law already provides that the pay of any labourer or domestic servant shall not be liable to attachment, and with the object of preventing the abuse complained of, we respectfully ask whether Government would be pleased to favorably consider the suggestion to include the Mining Companies' employees in the provisions of the new Code of Civil Procedure Bill, and that Section 60 may be amended to read as follows:—

"(h) Allowances (being less than salary) of any public officer or of any servant of a Railway Company or local authority (or Mining Company) while absent from duty;

(k) the wages of labourers and domestic servants whether payable in money or in kind (provided that Mining employees whose pay does not exceed Rs. 20 per month shall be deemed to be labourers)."

The Board are of the opinion that this would have the desired effect, and they trust that you will kindly see your way to give their suggestion your strongest support.

European Wards and Maternity Hospital.—A large numbar of Europeans and Eurasians, who frequent the Government General Hospital would be exceedingly grateful to the Durbar if that accommodation, which you were good enough to say last year you had in mind, could be made available for them at an early date; and those poor women to whom the opening of its benevolent doors actually means either life or death would, I am sure, bless the Government of His Highness, if that desideratum, the long-sought-for Maternity Hospital, could be hurried on so as to be at their disposal in their time of suffering.

Closing Remarks.—No doubt there are difficulties in regard to all these matters, but we look forward with confidence to their being surmounted, feeling that your sympathy is with us, and that your powerful advocacy will be exerted in favour of reforms which will go far towards securing the well-being and the health of the people on the Field.

In conclusion, we would offer our sincere congratulations to His Highness the Maharaja's Government on the peace and prosperity which has attended the State during the past year, and also on the very able report which has been presented by you, Sir, to this Assembly.

C. H. RICHARDS,
Chairman.

TRANSLATION

To

T. ANANDA ROW, ESQ., B.A., C.I.E.,

Dewan to His Highness the Maharaja of Mysore.

ESTEEMED SIR,

I, D. S. Hanumantha Rao, a member of the Representative Assembly from the Devanhalli Taluk, respectfully beg to submit the following address.

On behalf of the people of Mysore, I beg to state that they are full of joy on account of the prosperous condition of agriculture which is a result of the seasonable rains and the facilities which are being provided unasked to the people since you assumed the Dewanship of this State, and we beg that you will convey our feelings of gratitude to our beloved Ruler, His Highness the Maharaja.

It is my constant prayer that God Almighty may grant health, long life and prosperity to His Highness the Maharaja, who has identified his happiness with the welfare of the people, and to all the members of the Royal family and that you who have graced the position of minister of this State, may also be blessed with sound health and long life.

MYSORE,
11th October 1910.

D. S. HANUMANTHA RAO,
Representative Assembly Member,
Devanhalli Taluk.

III.

Address presented by the Central Mahomedan Association of Mysore, Bangalore.

To

T. ANANDA ROW, ESQ., B.A., C.I.E.,

Dewan o Mysore.

SIR,

As the representative of the Central Mahomedan Association of Mysore, I beg to convey to you their most sincere congratulations on the prosperity of the State which has been the result of your successful administration during the year that has just closed. It is a source of great gratification to the Mussalmans that the Government of India have recognised your merits, by admitting you to the Most Exalted Order of the Companionship of the Indian Empire. May I, in the name of my community, tender to you their hearty felicitations on the high honour that has been so deservedly bestowed, and pray that God may spare you in health and vigour for long years to come, that you may pursue undeterred your untiring labours the cause of the advancement of His Highness' subjects and earn for yourself still higher distinctions at the hands of the Supreme Government and of our beloved Maharaja?

Among many notable events of the year, my community recalls with pleasure and pride the happy marriage of His Highness the Yuvaraja, which, to the unmingled satisfaction of all Mysoreans, was celebrated through your efficient organisation, with a grandeur and hospitality befitting the Royal House of Mysore. My Association is grateful to recollect that it was privileged to present His Highness the Yuvaraja with a humble address in token of the loyalty and affection which the Mussalmans of this Province have always borne to the family of His Highness our beloved Maharaja.

While gratefully acknowledging the solicitude which the Mysore Durbar has always evinced on our behalf, my Association has commissioned me to invite your attention respectfully to some of the important subjects placed before the Government from time to time, on the sympathetic disposal of which the future of the community materially depends. The backwardness of my community in higher education has made special steps absolutely necessary to extend its basis in the secondary stage and accordingly we are concentrating all our poor resources on improving our condition in this respect. But experience has taught us that all our

efforts, by themselves are little avail, unless they are supplemented by a more extended patronage of the Sirkar in the shape of better educational facilities than are available at present. My Association prays that with a view to secure that even progress of the different peoples on which the healthy development of the State mainly depends, you will be pleased to consider at the earliest opportunity the desirability of raising the existing Anglo-Hindustani Schools to the Third Form, of opening new schools of this standard in centres where their want is keenly felt, and of strengthening the Mahomedan Inspecting Agency.

Of similar importance is the question of the appointments of qualified Mussalmans in the service of His Highness the Maharaja. Having regard to the increase that is taking place day by day in the number of educated Mussalmans, my community believes that many more of its young men can be entertained in the State service than are now actually taken in. Educated Mussalmans have always prized Government appointments not only on account of the prestige attaching thereto, but because of their traditional tendency to serve their Sovereign Master; and in these days of economic depression, this innate longing has been strengthened by the prospects of sure and steady income in the public service; and any disappointment that they may suffer in securing these, reflects very unfavourably indeed on the progress of modern education in the community. It is therefore that we invite your kind attention to our proper share of appointments in the Mysore State service.

The representation of the community on such an important Municipal Council and in such a populous Mussalman centre as that of the Bangalore City being continuously limited for years past, to a single nominated member, is a subject on which Mussalman feelings are much exercised in this Province. The community has found that without adequate representation on the local bodies, it is not possible to safeguard its interests many of which are not well understood by others. We therefore trust that His Highness the Maharaja's Government will be pleased to give a larger representation to our community on the Municipalities and the Local Fund Boards of the State.

With this reiteration of some of our pressing wants which we feel sure will have your kind consideration, we beg that you will be pleased to assure His Highness the Maharaja of the deep sense of loyalty and gratitude with which his living interest in our advancement has inspired the Mussalman community.

I have the honor to remain,
Sir,
Your most obedient servant,

MAHOMMED ABBAS KHAN,
Secretary, the Central Mahommedan Association
of Mysore, Bangalore.

15-10-1910.

TRANSLATION.

To

T. ANANDA ROW, Esq., C.I.E.,

Dewan of Mysore.

Esteemed Sir,

We, the Members of the Representative Assembly from the Chitaldrug District, beg to make the following respectful representation.

To you, the well-beloved Prime Minister of His Highness the Maharaja Sri Krishnarajendra Wadayar Bahadur, G.C.S.I., we are very grateful for your zeal in initiating measures conducive to the prosperity of the State and for the manner in which you have endeared yourself to all the people by redressing their grievances without distinction or favor.

We fervently pray that, in our district which is frequently menaced by famine in consequence of deficient rainfall, the two long-desired railway lines may be constructed to the great benefit of the people, one from Kottur to Tumkur *viâ* Jagalur, Chitaldrug, Hiriyur and Sira, and the other from Rayadrug to Chik Jajur or Sasalu *viâ* Naikanhatti and Chitaldrug.

We beg that you will kindly convey to His Highness the Maharaja Sri Krishnarajendra Wadayar Bahadur, G.C.S.I., our expressions of gratitude for the many blessings enjoyed by us during His Highness' reign.

It is our constant and respectful prayer that the Ruler of the Universe may grant long life, health and prosperity to His Highness the Maharaja, the Yuvaraja and to you, the Dewan of this State.

ADAVIPPA,

Shanbhog and Representative Assembly Member,

Chitaldrug Taluk.

V

Address presented by Mr. A. Ramanna, Representative Assembly Member, Yedatore Taluk.

To

T. ANANDA ROW, Esq., C.I.E.,
Dewan of Mysore and President of the Representative Assembly.

Sir,

The Address which we, the representatives, have just heard, is highly gratifying inasmuch as it teems with agricultural and industrial schemes highly beneficial to the people of the Province. In the year under consideration the ever loyal people of Mysore had the pleasure and privilege of welcoming in their midst that great representative of His Majesty the King-Emperor—the Viceroy of India—whose liberal-minded policy has, to a large extent, met the advanced aspirations of the people of India.

In common with the different nations of the world we, the people of Mysore, felt the extremest sorrow at the quite unexpected death of His late Majesty, King Edward VII. But it has pleased God to give us some consolation in the fact that his son and successor King George V, has assumed reins of Government, whose recent visit to Mysore is still so vivid in our minds and whose earnest object of life is, as expressed in His Majesty's speech on May 8th 1910, to "endeavour to follow in the footsteps of his august father."

Throughout the whole Province, it is a matter highly gratifying that the new Palace has been completed and the Dasara Durbars have begun to be held in the hall of the new Palace.

The people of the Province feel exceedingly happy that the marriage of His Highness the Yuvaraja was celebrated with all the splendour befitting the grand occasion, and more so, that the alliance is made with the historic Dalvoy family.

As to the expediency of raising the local cess, it is humbly submitted that the ryot in this country is poor and finds it difficult to meet the existing demand. About the year 1881, the State had an income of one crore of rupees and the expenditure, owing to famine of previous years, amounted to almost an equal sum or a little more. To solve the difficulty of the situation, reduction of expenditure was resorted to. The income is now two crores and 30 lakhs of rupees; and as compared with that of 1881, has more than doubled itself. If this amount should not be sufficient to meet the existing demands of the State, it is respectfully prayed that the demand, if any, over the Local Funds may conveniently be met by an economy in the items of expenditure rather than by further burdening the raiyat.

The idea of storing Cauvery water which would otherwise find its way to the sea unutilized for generating electricity and also for the purpose of irrigating the four thickly-populated dry taluks referred to in the Address, is to be hailed with joy, inasmuch as it will avert famine in these taluks and give sufficient agricultural occupation to the raiyats thereof, instead of their being necessitated, as at present, to go out of the country to coffee tracts for labour, wherefrom hardly half the number return hale and hearty to their native places.

The drinking of alcoholic liquor, whether country-made or foreign, has a most injurious effect on those using it from a moral and economic point of view; and the Government is to be heartily congratulated for the right step taken to limit the use of these liquors, by decreasing the number of shops for the sale of such liquors from 307 to 43.

It is a matter for satisfaction that the Government has bestowed its earnest attention for the encouragement of scientific and technical education and has begun to send out educated Mysoreans for receiving the same in foreign countries by granting them scholarships.

In conclusion, I beg, Sir, that you may be pleased to communicate these prayers and expressions of loyalty to our beloved Sovereign, His Highness the Maharaja.

I beg to remain,
Sir,
Your most obedient and humble servant,

A. RAMANNA,
Representative Member for Yedatore Taluk.

VI

THE DEWAN'S REPLY TO THE ADDRESSES.

Representatives of the Kolar Gold Fields Mining Board, the Central Mahomedan Association, the Chitaldrug District and the Devanhalli and Vedatore Taluks,

I thank you for the addresses you have just read and for the terms of appreciation in which you have referred to the administration of the past year. I must also add a word of personal acknowledgment for your kind congratulations on the honour recently conferred upon me by the Government of India.

2. The representative of the Kolar Gold Fields Mining Board has drawn attention to certain local wants, most of which are already engaging the consideration of the Government. The project for constructing a reservoir on the Cauvery to ensure the supply of electric power to the Mines during the hot weather has been referred to in my Address, and I need not repeat that the matter will receive the careful attention of the Government. Regarding the extension of the Mines Regulation to the Railway line, the Durbar is in communication with the Residency on the subject. Before any favourable decision can be expected, a cogent case established by undisputed facts has to be made out, for which purpose it is necessary to obtain accurate statistics of the number of cases in which there may have been failure of justice owing to the Mines Regulation not being in force on the Railway line. One suggestion that has been made in this connection is that the jurisdiction over the Kolar Gold Fields Branch line which has been ceded to the Government of India may be retransferred to the Durbar.

3. For covering the distribution tank at Champion Reef an estimate has been prepared, but this, as well as the projects for the construction of a Bacteriological Laboratory, the addition of European and Eurasian Wards to the General Hospital and the construction of a Maternity Hospital will have to await the allotment of funds on a consideration of the relative urgency of these projects with reference to works of similar importance in other parts of the State.

4. The suggestions in regard to the increase of the Police Force on the Field and the appointment of an additional Magistrate for dealing with cases under the Police Regulations will receive careful consideration.

5. As regards the proposal to insert in the Code of Civil Procedure Bill a provision exempting from attachment the leave allowances of mining employees and the earnings of such employees when not more than twenty rupees a month, I may invite your attention to the report of the Select Committee appointed to consider the Bill. In the opinion of the Committee any change in the existing law which is the same here as in British India, would be inexpedient and would give rise to claims for similar exceptional treatment on behalf of other large employers of labour. The point can however be discussed in the ensuing sittings of this assembly.

6. The representative of the Central Mahomedan Association has referred to the need for increased representation of Mussalmans on local bodies. The existing rules, I may say, allow of nominations being made to represent communities and

interests not otherwise adequately represented. The particular case of the Bangalore City Municipal Council which has been brought to notice will receive attention at the next suitable opportunity. The employment of members of the Mussalman community in the Public Service is a subject which has always received the sympathetic consideration of His Highness' Government which has not been slow in availing itself of opportunities when eligible candidates for employment have been forthcoming.

7. I have referred in my Address to the subject of railway extensions in Mysore. The particular lines for the Chitaldrug District referred to in the Address from that district will doubtless prove useful, and they are examples of the lines which Government will be glad to see started by private enterprise.

8. The question of raising the rate of local cess to which reference has been made is one about which, no doubt, differences of opinion will exist. The view advanced by the representative of the Yedatore Taluk, as well as any other views which members of the Assembly may put forward will, I can assure you, be carefully examined before any definite decision is reached.

9. In conclusion, gentlemen, it will give me great pleasure to convey to His Highness the Maharaja the sentiments of loyalty and gratitude which find so prominent a place in the addresses you have just read.

VII.

To

T. ANANDA ROW, Esq., B.A., C.I.E.,
Dewan to His Highness, Col., Sri Krishnaraja
Wodeyar Bahadur, G.C.S.I., Maharaja of Mysore.

May God Sri Gopalakrishna of infinite glory with his consorts Rukmini and Satyabhama bestow His blessings on our Sovereign Sri Krishnaraja, the flower of the Yadu race and the lord of wealth to whom we owe all our prosperity and whose fame has spread to the farthest ends of the Earth, praised by his subjects, happy under his benign rule.

Esteemed Sir,

We, the undersigned members of the Representative Assembly, most humbly beg to state as follows:—

From the address delivered on the 15th instant, we gather that our beloved Maharaja, who but a short time ago assumed the reins of Government has already proved himself to be an efficient ruler sympathising with his subjects in adverse times and rejoining with them in their prosperity and improving the economic conditions of the State for the well-being of his subjects. Unparallelled is the good fortune of the people of this State in possessing a Minister following in the footsteps of our Maharaja, and chief officers of the administration who are most efficiently discharging their public duties. We are unable to give adequate expression to our feelings of gratitude to His Highness the Maharaja and his Government for their kindness and love towards us.

We, the subjects of this State, sustained an overwhelming loss in the demise of His Majesty, Edward VII, King of England and Emperor of India but are consoled by the thought that his worthy son and successor has already shown his sympathy with all classes of his subjects.

Unbounded is our joy at the conferment by His Majesty of the title of "Colonel" on our beloved Maharaja and of "C.I.E." on you, his Prime Minister.

It is a matter for supreme gratification that we had good rains and in consequence abundant harvests throughout the State this year and that the public health was satisfactory, plague, which was constantly working havoc in the capital city, having completely subsided this year. We attribute all this to the just rule of our beloved Maharaja.

Sri Chamarajendra Wodeyar Bahadur, G. C. S. I., our late lamented Maharaja brought this Assembly of Representative subjects into existence immediately after he assumed the reins of Government, an Assembly the like of which was unheard of even in the days of Emperors like Mandhata and thereby promoted good feelings between the rulers and the ruled. This Assembly is growing in importance even as the moon during the bright half of its phase and we are glad that greater facilities required for its development are being granted. This Assembly begs to be excused for approaching you with a request that you may be so kind as to bring the following to the gracious consideration of His Highness the Maharaja:—

(*a*) Several citizens of Mysore have the good fortune of presenting His Highness with garlands and bouquets during the State Procession on the Vijaya Dasami day and the members of this Assembly beg that a similar privilege may also be kindly extended to them by allowing them to tender their humble greetings to the Maharaja on the occasion in some convenient locality.

(*b*) We are fully alive to the necessity of perpetuating the memory of our late beloved Emperor but do not know what views the Government hold as to the form the Memorial should take. We venture to suggest that as the subjects of this State are very willing to contribute their mite towards the Memorial, the same may be utilised for erecting a Memorial Hall in Mysore which will serve as residential quarters to the members of this Assembly during their sojourn here and which may at other

times be used for such purposes as the Government might deem fit. This will remove the inconvenience experienced by the members at present and will be a most befitting Memorial to His late Majesty, King Edward VII.

That God Sri Gopalakrishna may graciously grant health, wealth and prosperity to His Highness Sri Krishnaraja Wodeyar Bahadur, G. C. S. I., and to you and the other members of Government is our fervent and constant prayer.

May the Kingdom of our beloved sovereign Sri Krishnaraja ever flourish; may happiness attend the Royal Family ruling over us; and may Sri Krishnaraja with his royal consort, the Yuvaraja, the chief Minister and regal insignia ever prosper.

We beg to remain,
Esteemed Sir,
Your most obedient servants,
S. D. DASAPPA,
and others.

To

SRIMAN T. ANANDA ROW, Esq., C.I.E.,
Dewan of Mysore.

We the undersigned residents of the Hassan District most respectfully beg to state as follows:—

The most notable of the events that occurred since you graced the Dewanship of our State is the memorable celebration of His Highness the Yuvaraja's Wedding, which filled the hearts of all His Highness' subjects with immense joy. We are highly grateful to you, Sir, for the personal attention you bestowed on the most satisfactory arrangements ordered by His Highness the Maharaja, for the visitors and the exceedingly hospitable treatment accorded to the guests.

We are pleased to see that the British Government in recognition of your high character, ability and other commendable qualities have bestowed upon you the dignity of a Companion of the most Exalted Order of the Indian Empire.

We, in particular rejoice, to find you gracing the exalted position of the Dewanship, in view of the fact that having filled high offices in our own district you are personally acquainted with the people of these parts.

Our request, Sir, is, that you will during your reign see that a Railway from Mysore to Arsikere *via* Hassan—a line useful to all the subjects of His Highness the Maharaja and especially to those of the remote parts of the malnad is constructed.

We further beg that you may be graciously pleased to tender our humble solitations to our beloved Maharaja.

We pray that the Almighty God may be pleased to bless you and also His Highness the Maharaja and all the members of the Royal family with long life and prosperity.

Malali Venkataramiah and others.

TRANSLATION.

To

T. ANANDA ROW, Esq., C.I.E.,

Dewan of Mysore.

The humble address presented by Rangachar, Representative Member of the T.-Narsipur Taluk.

It is by the combined good fortunes of several blessed people that we have the illustrious Krishnaraja conspiciously figuring in that immaculate family which adheres to its noble traditions with an innate straightforward simplicity—a family where the glorious moon, the most distinguished among the all-knowing ones had his birth, a family which has produced sovereigns endowed with the energy and the attributes of Vishnu.

Although the seasons were favourable at the time when you accepted the Dewanship, yet plague and other epidemics prevailed in the capital town of Mysore, which prevented several representatives from attending the Assembly meetings, while some of those who attended, returned before the close of the session. This year we are very glad to state that the dire disease has disappeared and that most of the members have attended the Representative meetings.

By your advent to the Dewanship of the State plague subsided and distress disappeared, and while the people were rejoicing over this condition, our hearts were gladdened by the Wedding of His Highness the Yuvaraja, Sri Kanthirava Narasaraja Wodeyar, which was celebrated with more than usual grandeur, when guests both from in and outside the State, were duly received and honoured, and still greater pleasure did we enjoy by witnessing the Dasara Durbars in the new Palace, the completion of which we were anxiously awaiting.

You have filled several appointments in various departments of the State and in recognition of the good services rendered by you the title of C. I. E., was conferred on you by the Imperial Government.

We, the members of the Representative Assembly, are really grateful for the patient hearing accorded to our representations and to the favourable replies you were pleased to give us.

We dutifully thank His Highness the Maharaja and His Government for having conferred all these benefits on us.

We beg that you would be graciously pleased to lay our representations before His Highness the Maharaja and get our grievances redressed.

We pray Almighty God that He may bless our Maharaja and the Yuvaraja with worthy progeny, long life and prosperity, and we thank you once more for the patient hearing you gave to our representations.

May success attend our Maharaja Sri Krishnaraja Wodeyar and his eminent Minister Ananda Row and Councillors; may prosperity coeval with the sun, moon and stars attend the Yuvaraja Sri Kantirava Narasaraja Wodeyar; may the Representatives of the people with their Sovereign Lord ever be happy; and may the Dewan Ananda Row be ever prosperous always participating in the happiness of the people.

This address was presented by Rangacharya, a Representative of the people of Nirsimhapura.

RANGACHAR.
